Subject: BASF NW Wyandotte Michigan
Attachments: ATT00001.txt; 2021-11-05 BASF Northworks Briefing Memo and Attachments Tables and Figures.pdf

Good afternoon Molly,

Attached is a briefing memo regarding BASF Northworks in Wyandotte, Michigan. This memo was sent to EGLE Water Programs and the Michigan Department of Health and Human Services. We are seeking their input to evaluate the impact of the venting groundwater on water quality and the nearby municipal water intake.

We will let EPA know the results of those evaluations.

Please let me know if you have any questions or would like to discuss further.

Thank you,

Kimberly M. Tyson, P.E., Manager
Hazardous Waste Section
Materials Management Division
Michigan Department of Environment, Great Lakes, and Energy
